Year 6 Learning Quest Map and Home Learning Tasks Autumn 2 2026

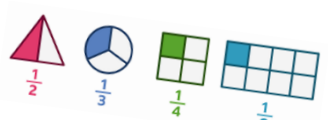

St Alban's C of E Aided Primary School
Inspired to make a difference in God's world with excellence and love

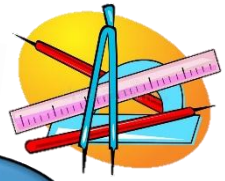

Where is the light?

Safeguarding
As part of our safeguarding curriculum, we will learn about managing emotions, staying safe online and understanding the rule of law. We will also take part in Anti-Bullying Week and learn about firework safety. In Bikeability, we will build cycling skills, road safety awareness and confidence when cycling independently.

English
Using the texts of Shakspear's 'Hamlet' (Tony Ross) and 'The Firebird' (Saviour Pirotta), we will contrast narrative and discursive writing, as well as levels of formality for different purposes. We will learn about characters' motivation and how this can affect plotlines.

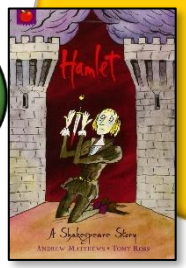

Science
As scientists, we will learn light travels in a straight line, allowing us to see luminous objects directly and non-luminous objects through reflected light. We will investigate reflection and shadow and how different materials, times of day and objects affect these.

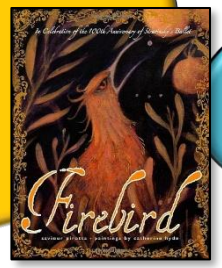

Maths
As mathematicians, we will consolidate our learning from last half term and cover new units on multiplication and division; fractions, decimals, and percentages; and measurement and geometry.

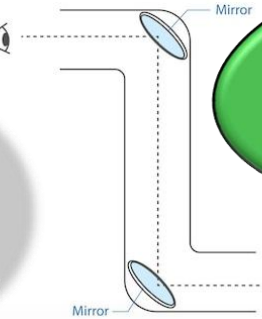

French
As multilinguists, we will learn the vocabulary associated with school and school life. We will continue to revise our numbers, colours and days of the week to support our learning.

Computing
As computing technicians, we will explore how websites are structured and designed, focusing on purpose, layout, navigation and visual appeal. We will also learn to use media responsibly, including copyright and fair use, to communicate ideas effectively and ethically.

Art
As artists, we will learn about geometric art styles, commonly found in Islamic art. We will create our own geometric patterns and adapt them for printing and turning into Christmas cards.

As historians, we will learn about the significance of Early Islamic Civilisation and how its legacy is relevant today. We will learn about the significance of the House of Wisdom, founded by Harun al-Rashid, and the role of Baghdad in relation to trade and linguistics and contrast this with Europe at a similar time. We will learn about key scholars such as al-Khwarizmi, al-Razi and Ibn al-Haytham.

PHSE
This half term, will use myHappyPlaces to recognise, understand and manage our emotions, helping us feel happy and safe. We will learn about the rule of law and staying safe on line in myHappyworld and continue to learn about our brains in Celebrate.

Music
As musicians, we will listen to and reflect on The Firebird Finale by Igor Stravinsky. We will use our voices as well as pitched and unpitched instruments to create and perform our own version of Stravinsky's music. We will learn the musical language associated with this.

RE
As theologians, we will explore the concept of Incarnation through the Christmas story. We will study the text and artwork related to the Transfiguration and consider how Christians celebrate the true meaning of Christmas and why it remains relevant to us.

PE
As athletes, we will develop our understanding of the attacking and defending principles of invasion games through Netball. In Dance, we will learn about bhangra and contemporary dance styles.

Year 6 **Learning Quest Map and Home Learning Tasks** **Autumn 2 2026**

St Alban's C of E Aided Primary School
Inspired to make a difference in God's world with excellence and love

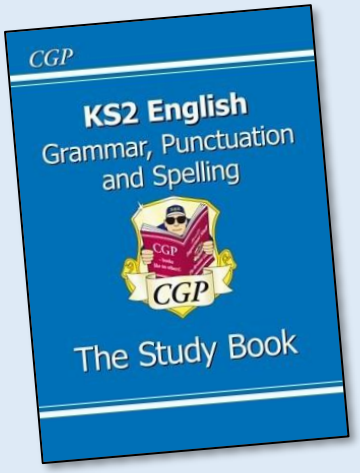

DAILY

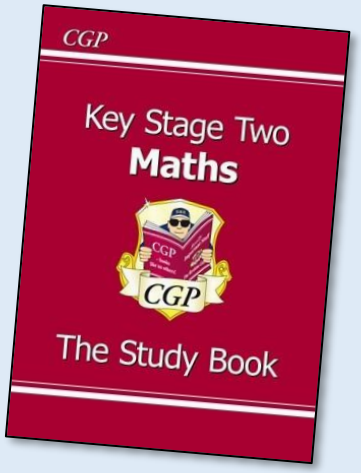

Reading: Rocket Reads recorded on the Pageticker. This can be downloaded from either the App Store or Google Play.

Maths: TTRS – make sure your heatmap is green. If you know your facts to 12 x 12, start learning your 13 – 19 times tables.

Additional Support: You may be given additional handwriting, times tables, or maths to complete on an ad hoc basis.

WEEKLY: Set on Fridays to be handed in the following Wednesday

Year 6 Homelearning Booklet

- Complete the task in your homelearning booklet (given out on Friday)
- This will consist of:
  - spelling – every week
  - reading **or** grammar **or** maths
- These should not be completed as 'tests' or a recall exercise. If you get stuck or don't know something, **you need to find it out**, e.g. using your Study Book or Googling.
- You could always ask an adult or older sibling to **show** you how to answer a question.

Remember, the Year 6 adults are always here to help you too.

Homelearning will be set on Google Classroom. Remember, you will need to use the My Login page to access Google Classroom and then use your emoji password. If you are asked for a class code, ask your parents to check the security settings and make sure you are logged in to your Google account. There, you will find all the information you need about the tasks you need to complete and resources to help you with your homelearning. On Tuesdays, I will post the answers to your homelearning. You must **mark** your homelearning and return your booklet to school so I can check it on Wednesday mornings.

DURING THIS HALF-TERM

Spelling

- Learn the spellings on your Spelling Card. Your teacher will let you know which card you are on.

Learning Quest Homelearning

- Before the end of the half-term, you need to create something that reflects our learning on light and pattern.
- Suggestions: Shadow drawing, make a Kaleidoscope, create your own geometric tile design, make a colour wheel project, light maze, stained glass window design, or draw the Northern Lights. Anything to do with light or pattern.
- Bring your creation to school to share from the week beginning **Monday 14th December**
- **Do not use AI to produce your homelearning. This needs to be your own work.**
